

A Boy's Wish

I wish to have a Pokémon-themed clubhouse!

2020 was an especially tough year for “J.” In addition to receiving medical treatments for his illness, he also had to manage through the uncomfortable and rigorous COVID-19 protocols.

In addition to that, he and his sibling suffered the loss of a parent. Around the same time, the two of them were placed in the care of their grandparents. Despite all of this, J looked forward to the day his wish would arrive and renew feelings of fun and wonder!

“GOTTA CATCH ‘EM ALL”

One his favorite things in life is playing Pokémon and hang out with his friends. After giving it a lot of thought, J decided to wish for a playset... but not just any playset. He wanted a modern, fort-like Pokémon-themed clubhouse! Upon learning this, the wish coordinators at Make-A-Wish™ Georgia set to work at making his wish come true.

THE BIG DAY

When his wish day arrived, J and his family gathered together. Upon the big reveal, he was amazed to see the masterpiece of a clubhouse that the volunteers and staff had created just for him!

The two-tower structure was a custom design, complete with rope bridge, tire swing, and hiding nooks. The structure was painted in classic Pokémon colors—red, yellow, black, and white. Inside the clubhouse, there were games and beanbags, as well as fun features like sliding Pokeball window covers and cut-outs of famous characters like Pikachu, Squirtle, and Charmeleon.

To make the clubhouse extra special, J was given an “official deed” as the new owner of the clubhouse. He was in awe of all he saw, and he never stopped smiling... or running!

In a year that offered a lot of uncertainty and hardship, little J will never forget the day that his wish for JOY and HOPE came true!

I wish to have a playset

“J”, 9

life-threatening medical condition

“Owner promises to maintain the grounds, keep it clean, and have the most fun imaginable!”
