

# Meet Madalyn

## From Wish Kid... to Intern!

Madalyn remembers her wish trip vividly: it was the day she and her family packed up and left behind the doctor visits and hospital stays. "We experienced happiness amidst a very tough season in our lives," she recalls. "My wish is still one of our favorite memories as a family."

Madalyn's wish for a quick escape was filled with fun and wonder, yet the impact of her wish did not stop when the trip ended.

### THE LASTING IMPACT OF WISHES

Years later when Madalyn began looking at internship opportunities in college, she knew she wanted to give back. Some of the non-profit organizations resonated with her passions, but none more so than Make-A-Wish™ Georgia. Her second wish came true when Madalyn was selected to be a Community Events Intern.

"I am humbled to be a part of making wishes come true," she says. "Now as an intern, I get to help create what was gifted to me all those years ago: JOY in the form of a WISH."

"This mission is very close to my heart," she says. "It is a source of support and hope for wish children and their families, and I wouldn't want to think of a world without this organization!"

Wishes have a lasting impact on children, and Madalyn is a sterling example of the JOY and HOPE that originates from the power of a wish!

*"As a former wish kid, I have first-hand experienced of the pure JOY and HOPE that wishes bring!"*

- Madalyn
